Wycliffe Homes *Since 1951*

# OVER SIXTY YEARS OF BUILDING EXCELLENCE

Since our founding in 1951, Wycliffe Homes has worked from a philosophy that has set us apart for generation after generation. We know you have a vision of a home that is perfect for you... a home offering the ultimate in quality, designed for comfort and brought to you with service that guarantees satisfaction in your home buying experience. Our commitment is to deliver and exceed your expectation of perfection, in homes from beautifully designed townhomes to million dollar mansions.

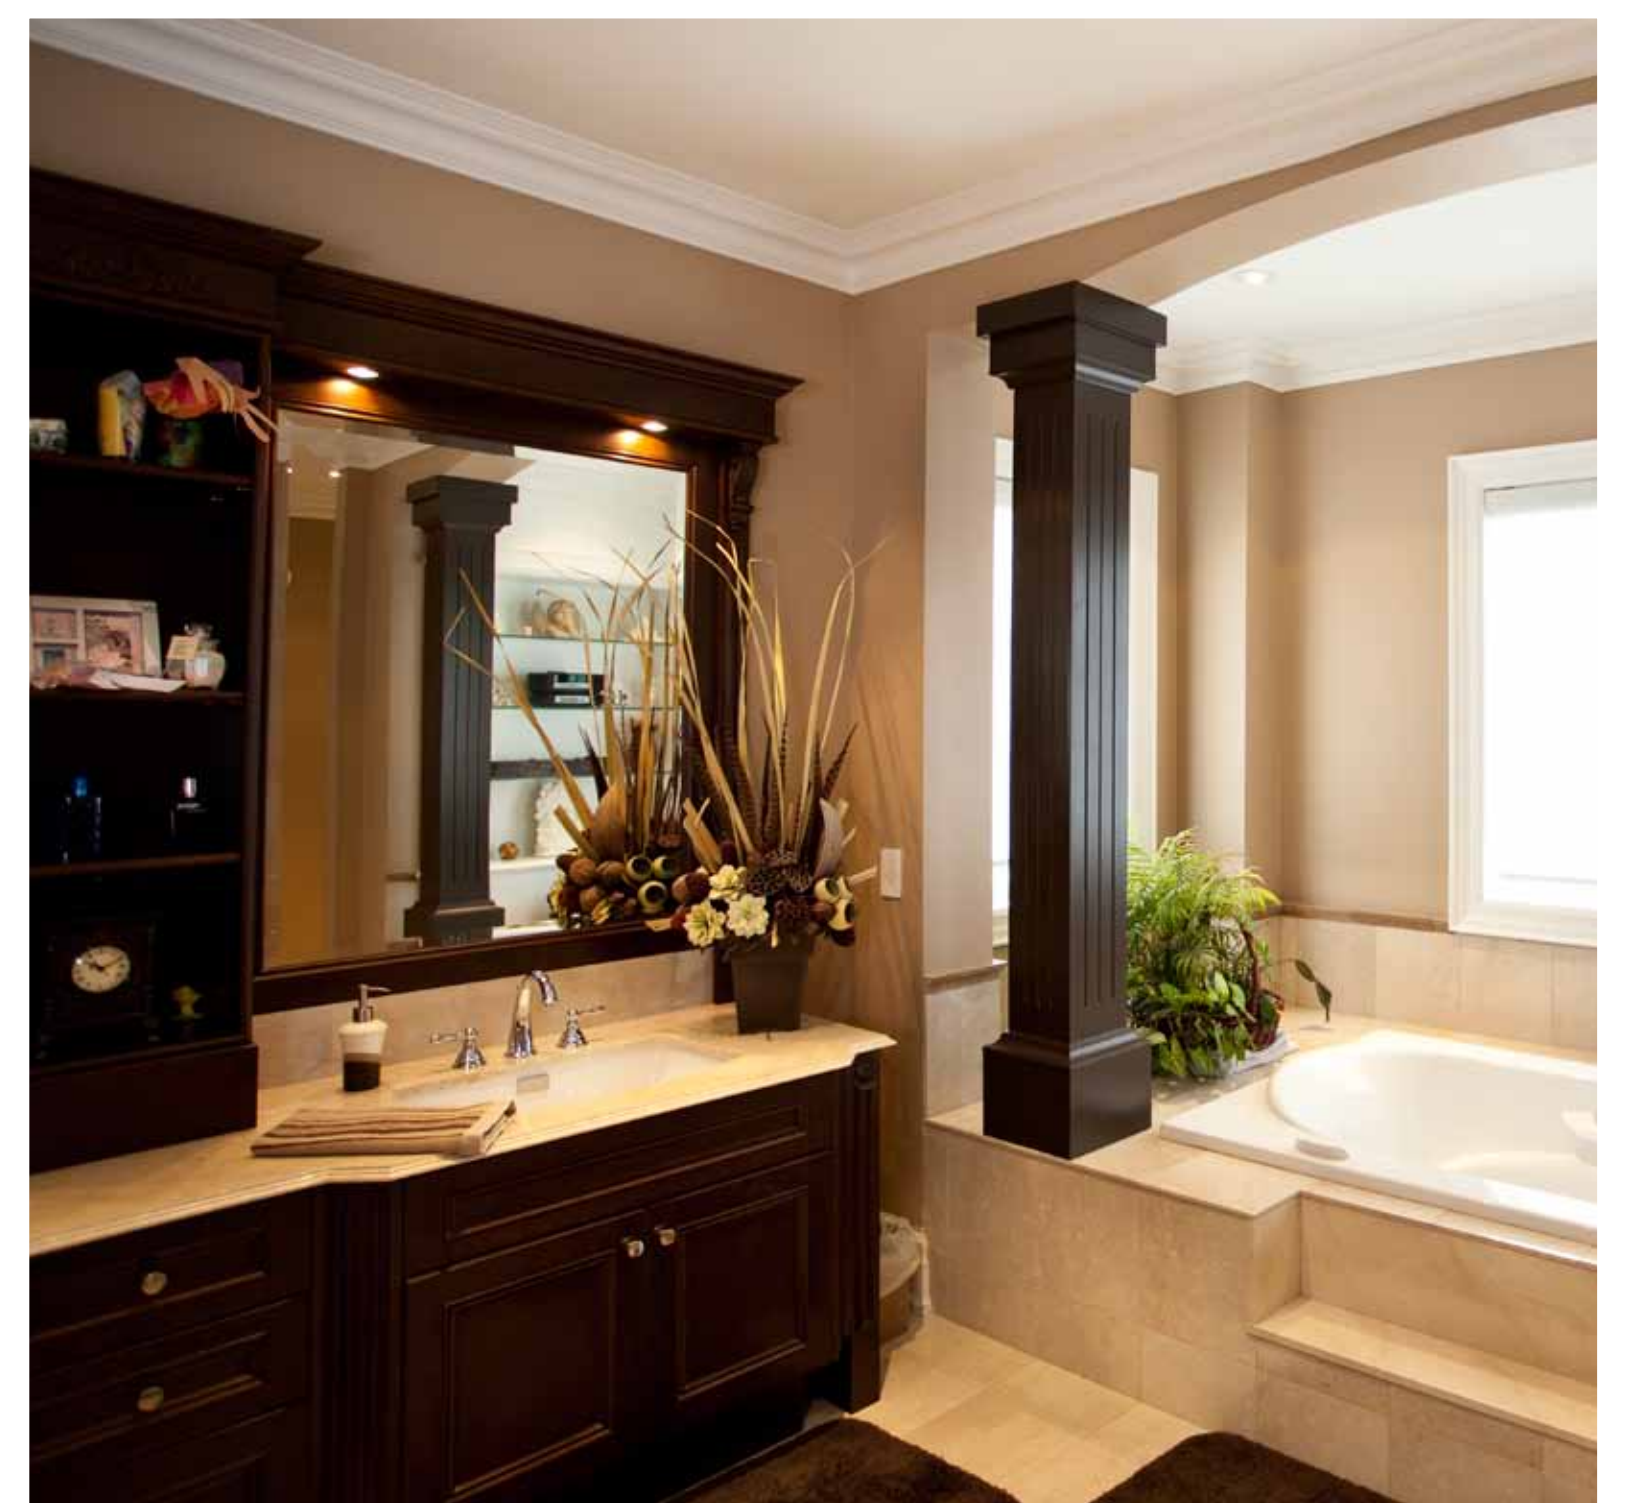

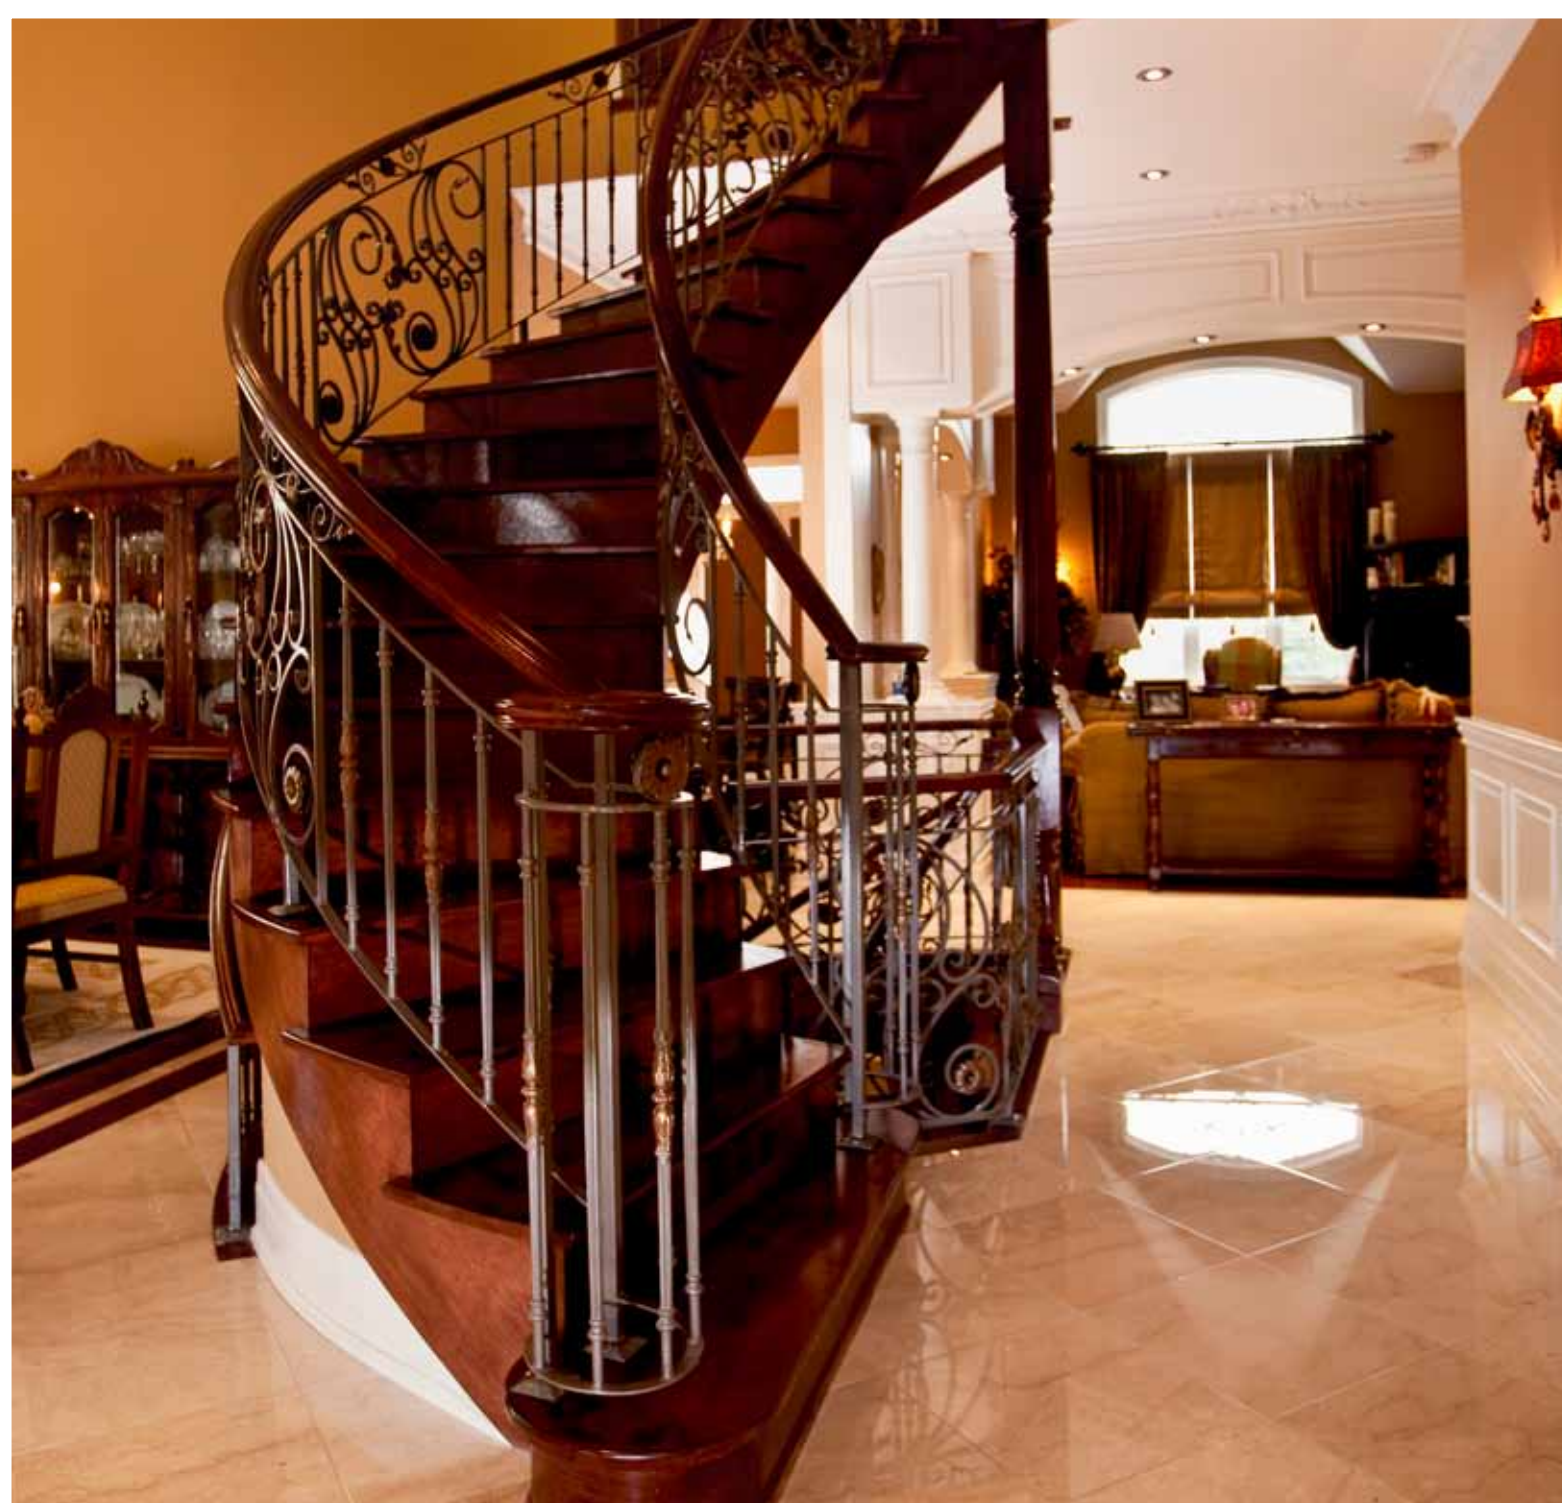

From the beginning, Wycliffe Homes has pioneered a different approach to service. It starts with the Wycliffe Design Interview. During the purchase process, senior company members spend time with each buyer, determining specific design and layout requirements and customizing needs to express each client's individuality and personal vision of a dream home.

Wycliffe's commitment to perfection is expressed in superb craftsmanship, lavish architectural detail and unique designs whose sweeping, spiral staircases, lustrous wrought-iron railings and exquisite hand-carved details among others have set new standards for the industry.

Wycliffe Homes is managed by dynamic principals coming from a strong family heritage of developing superior communities. Our dedicated hands-on direction ensures that outstanding quality and complete reliability are built into every Wycliffe Homes community.

Master craftsmanship and in-depth follow-up service have earned us an outstanding New Home Warranty record. An unwavering commitment to excellence – all the makings of the difference that sixty years of leading new home building can make.
